Simply Call

A compact phone with all the essential functions at your finger tips. Ergonomically designed to give excellent sound reproduction, this plug & play device makes calling your loved ones truly enjoyable.

Nice and simple

- Ultimate convenience through easy setup
- Textured back cover for non-slip grip
- Menu in multiple local languages
- Easy to read 4.1 cm (1.6") display with amber backlight
- Up to 10 hours talk time on a single charge
- Caller ID – so you always know who is calling

Crystal clear sound

- Parametric Equalizer delivers pure and clear sound
- Automatic Volume Control offsets unwanted volume variation
- Optimized antenna layout for great reception in any room
- Advanced sound testing & tuning for superb voice quality

Eco-conscious product

- Low radiation and power consumption

PHILIPS

Highlights

4.1cm (1.6") display

Easy to read 4.1 cm (1.6") display with amber backlight

Advanced sound testing

We test the sound quality of our DECT phones the same way as high-end headphone manufacturers do. Using an advanced ear simulator, we can accurately re-create the way people actually hear. This helps our acoustic engineers to measure and fine-tune things like frequency response, distortion and overall hearing perception, to create perfect voice reproduction for both handset and handsfree modes.

Automatic Volume Control

Automatic Volume Control offsets variations in sound signal, which can be caused by distance, signal strength or the caller's phone - so what you hear always remains consistent. Reducing the audio amplification for strong

signals, and increasing it for weak ones, it means you can enjoy a smooth conversation without unwanted sound volume variation.

Caller ID

Sometimes it is good to know who is calling before you answer. And our Caller ID lets you keep track of who is on the other end of the line.

Easy setup

Ultimate convenience through easy set up. Simplified installation - Plug & Play product

Eco-conscious product

Philips phones are energy efficient and designed to be respectful to the environment. The power consumed by them in stand-by mode is less than 0.75 W.

Menu in local languages

Enjoy easy set-up, navigation and control with intuitive menu available in up to seven local languages.

Non-slip grip

The rear of the handset is treated with a special texture for added comfort and better grip.

Optimized antenna layout

Our optimized antenna layout ensures strong and stable reception – even in areas of the house where cordless transmission is difficult. Now you can take a call wherever you are in the house, and enjoy a long, uninterrupted conversation even as you walk around.

Specifications

Sound

- Volume control on handset
- Ringtones on handset: 10 standard

Picture/Display

- Display size: 4.1cm / 1.6"
